Profile

I'm a highly motivated engineer with a passion for software development, skilled at collaborating with clients to achieve successful project outcomes. I excel both as a team player and working independently to deliver exceptional results. I'm eager to contribute my skills and knowledge to help a company exceed its goals.

Work Experience

SOFTWARE ENGINEER, LEAGUE

TORONTO, ONTARIO – 2023-PRESENT

- ▶ Member of the backend development team, actively collaborating with cross-functional teams to design, develop, and deploy robust software solutions.
- ▶ Develop and maintain Golang software applications resulting in improved user experience.
- ▶ Contribute to code reviews and debugging sessions to maintain high-quality code.
- ▶ Implement new products and integrations in the League platform.
- ▶ Continuously collaborate on cross-functional data integration projects involving FHIR data modelling and mapping.

SOFTWARE DEVELOPER, CLEARCABLE NETWORKS

HAMILTON, ONTARIO – 2018-2023

- ▶ Developed integrated frontend and backend interfaces, including Restful microservices with Python and Flask.
- ▶ Provided ongoing support and maintenance for deployed software solutions, including updates, new application development, and conducted client training.
- ▶ Conducted quality assurance testing against software, identified software bugs, documented, and took corrective action where applicable.

Education

McMaster University, Hamilton, Ontario - Software Engineering and Co-op, 2018

Skills

Golang, Python, Perl, SQL, HTML, Flask, VS Code, Teamwork
